Cosmetic & General Dentistry

January 2007

To All My Patients:

Much has changed since I sent my annual New Year's greeting out to you this same time last year. Most notably I've moved my offices to the corner of Bloor & Bay.

For a long time we had been bursting at the seams in our old Cumberland office, and I have now found what I consider an ideal location to accommodate my ever growing practice. We have worked hard to achieve a light, airy and coolly contemporary look on the 12th floor at 77 Bloor Street West. There is a stunning view of the skyline and streetscapes running towards the City's downtown area and on a clear day you can even see Lake Ontario glistening in the distance. The office was designed to serve as a comfortable welcoming environment to help make your regular visits to us a pleasant experience. There are even some old Charlie Chaplin silent movies on view which should be able to elicit a smile or two from most of us even in these Modern Times.

As you know we have always prided ourselves on our sense of professionalism and staying at the forefront of advances in dental technology. On that note, we are now thrilled to be able offer our patients the latest in digital radiography. Among a host of other benefits, this system produces 70% less radiation than traditional x-rays with images being instantly available on a computer monitor and easily transmitted via email. We have also updated to state-of-the-art sterilization equipment so that you can be assured that in our new environment, as always, we still genuinely care about all aspects of your dental welfare.

Many of you have already visited us since we opened in October. For those of you who have not yet dropped by, I look forward to seeing you soon and expect that you will be pleasantly surprised.

***As we begin the New Year we would like to thank all of you for your loyal support over many past years and for giving us the opportunity to look after your dental health and the ever changing quality of your smiles.***

Best and warmest wishes for the upcoming 2007 year

Judy Sturm
